On 3 Sep 24, I (MID20767) was on SLE reporting from Lorong asrama back to selaring camp after detail when I was part of a side swipe incident involving Darick Goh (GBC2492K). He was exiting exit 3 and heading towards exit 1B (TPE). I signalled left and checked the big mirror of my 5TON. I did not see any vehicle and proceeded to lane change from lane 4 to 5 when my steering wheel felt heavy. My VC, 3SG ASHER then shouted "car!car!car!" after the impact. I then realized my front wheel tyre had came into contact with a van's side rear tyre guard. I then slowed down and went to the road shoulder. I disembarked the vehicle and assessed the damages.

This statement was read over to me by the Investigating Officer and I was given the opportunity to make and sign against any amendments in the statement. I made this statement without any threat, inducement or promise.

Figure C-3: Statement of VC (Part 1)

ON 030924 at approximately 1950 HRS, at on the Seletar expressway in lane 4 <sup>lane changing</sup> ~~converging~~ into lane 5, the transport operator signalled to go left and executed the lane change. I was the vehicle ~~commander~~ commander and I glanced left and noticed a blue van below my left passenger window. I promptly shouted out to the transport operator "car, car" informing him of the presence of the car beside the turner, however there was a delayed reaction in his movement and as such the tyre of the turner grazed the right ~~and~~ side of the blue van. We then pulled over the turner to assess the damage. The van was travelling at ~~the~~ an average speed higher than that of the turner ~~hence~~ it was able to be beside the turner when the incident happened.

This statement was read over to me by the Investigating Officer and I was given the opportunity to make and sign against any amendments in the statement. I made this statement without any threat, inducement or promise.
