

ACCIDENT INVOLVING VITO (MID46354/GBF8417Z) AND A CIVILIAN CAR (SJN8961G) ALONG SLE TOWARDS LENTOR FLYOVER AT AROUND 1645HRS ON 15 MAR 2023

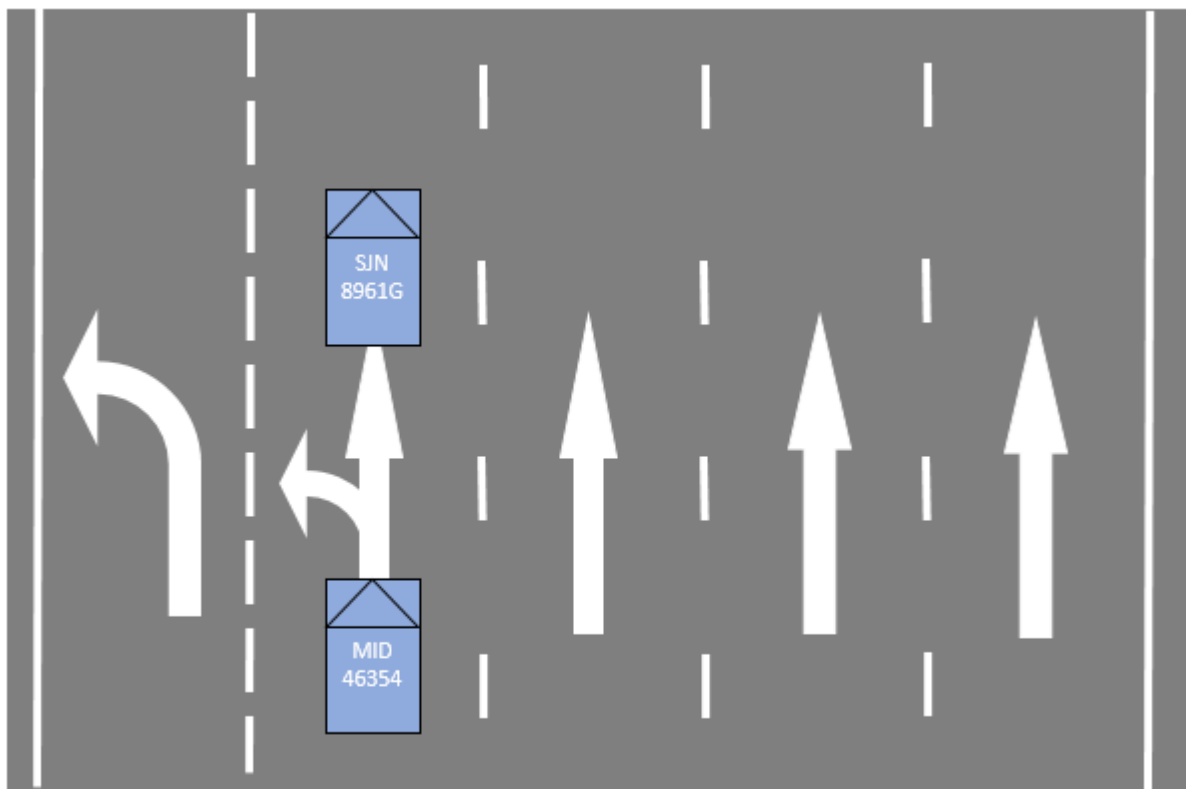

The incident happened on SLE. MID46354 was being driven on the left lane while SJN8961G was driving in the filter lane.

Figure 1A: Schematic Diagram

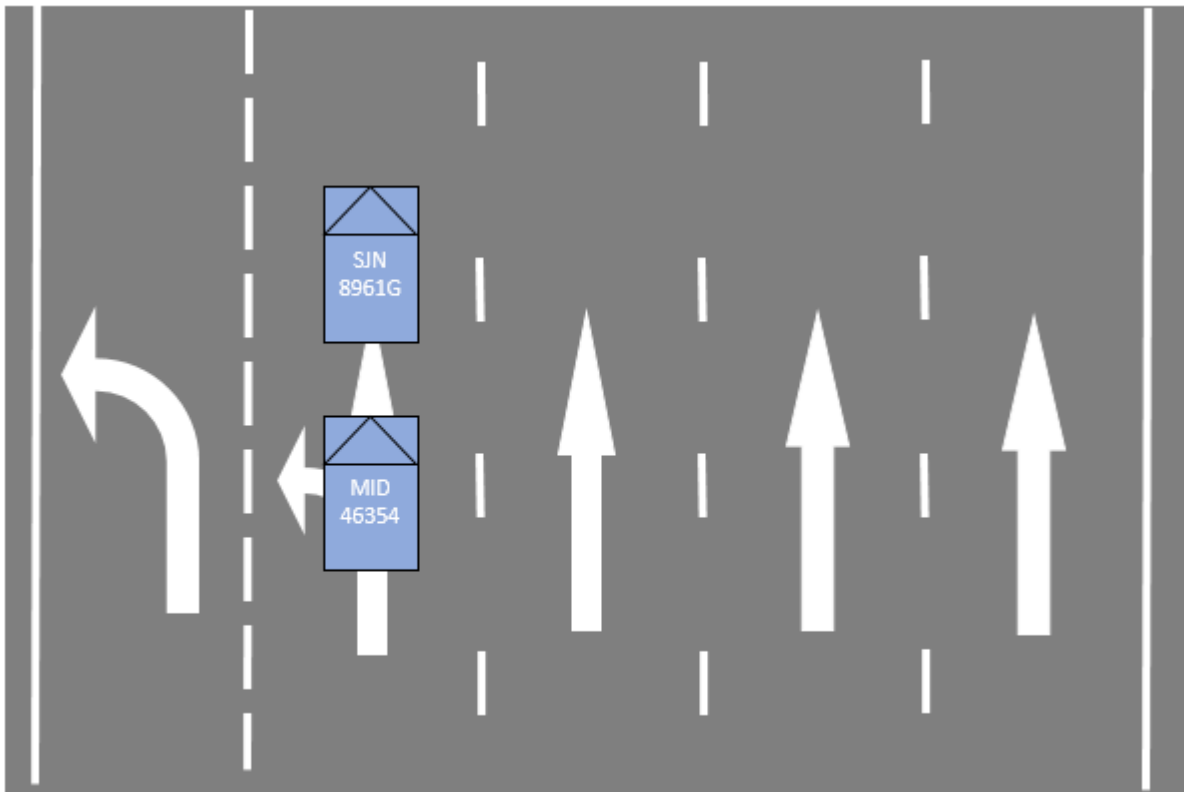

S/N8961G filtered to the right in front of M/D46354.

Figure 1B: Schematic Diagram

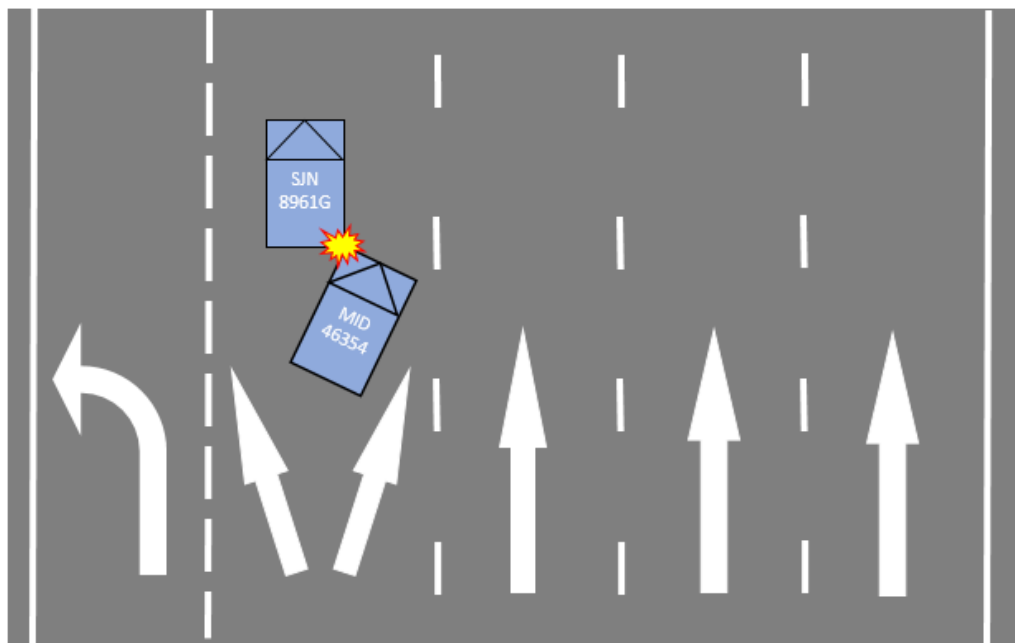

LCP JOSH maintained a 1.5 car length following distance from the vehicle in front.

Figure 1C: Schematic Diagram

LCP JOSH decelerated but failed to stop in time to avoid coming into contact with S/N8961G.

Figure 1D: Schematic Diagram

LCP Josh decided to veer to the right to avoid complete frontal collision, which resulted in M/D46354 coming into contact with the rear right of S/N8961G.

<p>I, LCP JOSH EDWARD DELANTE RICAFORT, was driving with my vehicle commander 3SG HO JIA LE, GERALD, at 1645H to return to STAGMONT CAMP from PUNGGOL SAFRA on vehicle MID46354 (GBF8417Z). I was driving to familiarise myself with the routes and gain confidence in driving to potential operations sites.</p> <p>I was driving from PUNGGOL SAFRA to STAGMONT CAMP and was on the highway SLE travelling to Lentor Flyover at 1645H. The other vehicle involved in the incident made an abrupt lane change to the right, ending up 1.5 car lengths ahead of me on my lane. The other vehicle then slowed down and stopped abruptly in front of me. My reaction was then to slow down immediately. However, I determined that continuing straight forward would result in a frontal collision, I made the decision to change lanes. Unfortunately, I did not manage to change over in time, resulting in our vehicles coming into contact.</p>

<p>I, 3SG HO JIA LE, GERALD, was the vehicle commander for MID46354 (GBF8417Z). We were on SLE heading towards Lentor Flyover to return to Stagmont Camp at 1645H.</p> <p>As we were on SLE, travelling towards Lentor Flyover, a civilian vehicle cut in front of us, at a distance of about 1.5 car lengths. He suddenly slowed down and stopped and we were travelling under 60km/h. We noticed the sudden change and my vehicle driver started to slow down to avoid a collision. We were however getting too close and to avoid hitting the bumper of the vehicle, my driver turned to the lane on the right. We nevertheless came into contact with the civilian's vehicle and this is how the incident took place.</p> <p>I then immediately told my driver to pull over at the side, and reported the incident to my conducting body. I then proceeded to exit the vehicle to collect details of the civilian driver. My conducting body arrived thereafter and assisted me and my driver in handling the situation.</p>

Brief details.

I was driving my vehicle GBF8417Z (MID46354) accompanied by my vehicle commander, Ho Jia Le, Gerald, along SLE heading toward Lentor flyover, there was a car ahead of us that quickly slowed down and braked. I was travelling under 60km/h and was about 1.5 cars away when I noticed it and began to slow down with the intent to avoid a collision. As I was slowing down, I realised that I was going to hit the car despite the deceleration, and to avoid so I made the decision to change into the lane on the right to avoid a collision. As a result, I came into contact with the right side of the civilian car boot (SJN8961G, Honda Freed) driven by Mr Karu (88384746)
