Dear Sirs,

ACCIDENT INVOLVING VEHICLES SCU 868S(OI) AND SJQ 2459P(TP) ON 12/11/2017

We refer to the above matter.

TP reported that green light was in his favour when he drove off from newton road and collided with OI vehicle. Enclosed copy of TP CCTV footage for your review.

OI reported that he was driving along the middle lane of the roundabout when TP suddenly collided onto his left rear portion of his vehicle. No CCTV footage or accident photos provided by OI till date.

Based on TP CCTV footage, after review, we observed OI vehicle was travelling on the roundabout when TP vehicle, which was moving off from newton road with green light in its favour, collided onto OI vehicle.

We had spoken to the Insured where he confirmed that at the material time, he was travelling at the said location as reported when TP vehicle was entering into the roundabout and collided onto his rear left portion of his vehicle. OI strongly disputed and refused to settle as he believed that his vehicle which was already in the roundabout has precedence. Enclosed copy of email from our insured for your perusal.

We are of the view that OI version is more credible and based on the TP CCTV footage, the above scenario best fits in BOLA 12.

	SCENARIO	DESCRIPTION	 X	 Y
	ROUNDABOUT - Entering (Controlled / Uncontrolled)			
12.		Vehicle X – Entering into the Roundabout Vehicle Y – Moving along in the Roundabout Reason: Vehicle already in the roundabout has precedence	100%	0%

As such, we intend to reject the TP claim.

For your approval and/or further instructions please.

Thank you.

Best Regards,
