Dear Sirs/Mdm,

ACCIDENT INVOLVING SJS9447S AND MCN3065 ON 03/12/2017

We refer to the above matter.

Sorry for the late reply due to time required to source for this Malaysia vehicle. The said vehicle information as follows: -

1. Vehicle registered in 2014, at the time of accident about 3 years old.
2. At the time of inspection, surveyor checked market source and opined that the said vehicle was economical to repair.
3. Current market value checked in range between RM58K - \$65K.(see attached enclosed).Thus, the said vehicle at the time of accident 3 years newer should be higher than the current.
4. Market practice Malaysia vehicle registered in Malaysia has no limited lifespan, hence without any scrap value as compared to Singapore LTA's Rebate.

Hope the above clarified.

Best Regards,
