## WITHOUT PREJUDICE

Dear Sir/Madam,

The above matter refers.

We append below our Insured's sketch for your easy reference:

Sketch Plan #2 Pg. 1

### DESCRIBE CIRCUMSTANCES OF THE ACCIDENT

On 19 Dec 2017, at about 10am, while travelling along Alexandra Road, a taxi (TransCab) with plate no SHD 426P did a sudden swerve to the left. I was driving on the extreme left lane. The taxi was on my right lane. Due to the sudden swerve left, I did not have the opportunity to brake in time to give way to him.

The above incident causes a collision. The left corner of the taxi bumper and my car right corner (headlamp).

We exchanged both driving licence & i/c's. Taxi driver made an agreement with me that he will claim himself & myself will do my own claim.

I will proceed with 3rd Party Claim if I felt uncomfortable after the collision happened.

Based on the documents at hand, both parties have given conflicting versions. Insured alleged that Third party swerved into his lane. Whereas Third party alleged front to rear collision.

In the absence of any supporting documents from third party and the damage profile (below), we opine that our Insured's version is more probable.

As such, we opine that liability is down against your client and we have our principal's instruction to reject the claim and we are unable to look into your client's claim.

Thank you.

Best Regards,
