Attachments: 7265323753SG scene photos.pdf

Dear Hsiao Tong,

The video footage shows that our driver was forced to stop while inching out. The taxi driver refused to give way and drove her way into the front scraping OIV front bumper with taxis corner left hand side bumper.

Immediately after the scene, our driver took the attached photographs. It clearly shows that OIV was already $\frac{3}{4}$ into the lane when the taxi driver side-swipe OIV.

Please maintain our proposal to settle at 50:50.

Best Regards,

Maricel Olea

Dear Hsiao Tong,

As spoken, please request for the longer copy of the video depicting before and actual collision.

Otherwise, please offer up to 50% liability for side-swipe collision.

Best Regards,

Maricel Olea

Hi Maricel,

We refer to the above matter.

Attached is a copy of video footage from third party for your easy reference.

Third party reported that he was on lane 3 queue towards Taxi stand at Clark Quay. Suddenly OID from bus stop came out and intercept to his lane and forcing third party to move more to right. When third party was moving straight, OID hit onto his taxi.

OID reported that he signalled right and intended to filter back to main road from bus stop. His car was stationary when third party came from his right to overtake his car. Third party taxi brushed against the front right portion of his car.

Based on the video footage and damage profile of both vehicles, we are of the view that our insured vehicle was stationary when the collision happened.

For an amicable settlement, we would like to propose 50/50 in view of our insured vehicle had encroached into the main road of third party. Third party did not attempt to avoid our stationary vehicle.

Kindly let us have your instruction/comments please.
