Sketch Plan #2

DESCRIBE CIRCUMSTANCES OF THE ACCIDENT

The side to side accident at Lor 3 Car Park entrance SJ24747Y driven by me is taking an right-angle turn into car park. SLG 9090H was at the T junction on the way out. His car was slightly slanting with car rear towards right side. I managed to navigate slowly and already turned in straight (side by side) along the narrowed passage. I expected him to proceed out of the car park thus create more space for me to proceed. Apparently he just stood there not moving although my car already cleared the passage for him to drive out.

I think he deliberately stay put to make it difficult for me to turn into Car Park. After the accident he blamed me and asked for compensation. I told him negatively as both are at fault on a side to side accident in a tight passage.

DECLARATION

I/We declare the foregoing particulars are true in every respect.
