Dear Jaclyn,

ACCIDENT INVOLVING VEHICLES SKW 7748D(OI) AND SBS 3404A(TP) ON 07/01/2018

We refer to the above matter.

TP reported that he was travelling straight within his lane when OI side swiped onto his left side portion of his vehicle. No photos or CCTV footage provided by TP till date.

OID reported that his vehicle was in stationary when TP changed lane and collided onto his rear right side portion of his vehicle. Enclosed copy of OI CCTV footage as attached for your easy reference.

Based on OI CCTV footage, after review, we observed OID vehicle was stationary within his lane when TP vehicle encroached into insured's lane which resulted in the collision.

We had spoken to the Insured driver where he confirmed that at the material time, he was travelling at the said location as reported when TP vehicle encroached into his lane and collided onto the rear right portion of his vehicle. OI further mentioned that his PD recovery claim against TP is still in the process and will revert for any update.

Based on the OI CCTV footage and accident scenario, we are of the view that OI version is more credible.

As such, we intend to reject the TP claim.

For your approval and/or further instructions please.

Thank you.

Best Regards.
