Subject: Ref: Letter regarding insurance claim for SJX3357G
Attachments: Video.MOV

Dear Irene Joy

This is with reference to letter received for our vehicle with registered number: SJX 3358G

First of all we are not aware of any police report that was made against us on the spot of mentioned accident and also are unaware of any claim made for accidental damage

Yes, our car and taxi were in very close proximity of each other but there was no physical contact between the two cars. Kindly see attached images which clearly shows the gap. So there was no accident that occurred. I have also attached a video which shows that there are absolutely no scratch marks that would result from such claimed accident.

His taxi suddenly came in front of my car while I was turning right from Buyong road onto orchard road.

I did insist on reporting the incident to police on the spot, which is the usual protocol to be followed in case he had any doubt that there has been any contact between the cars. However the taxi driver showed no interest in approaching police for an accident report and drove off in frustration and anger from Buyong road the onto orchard road near Istana Park.

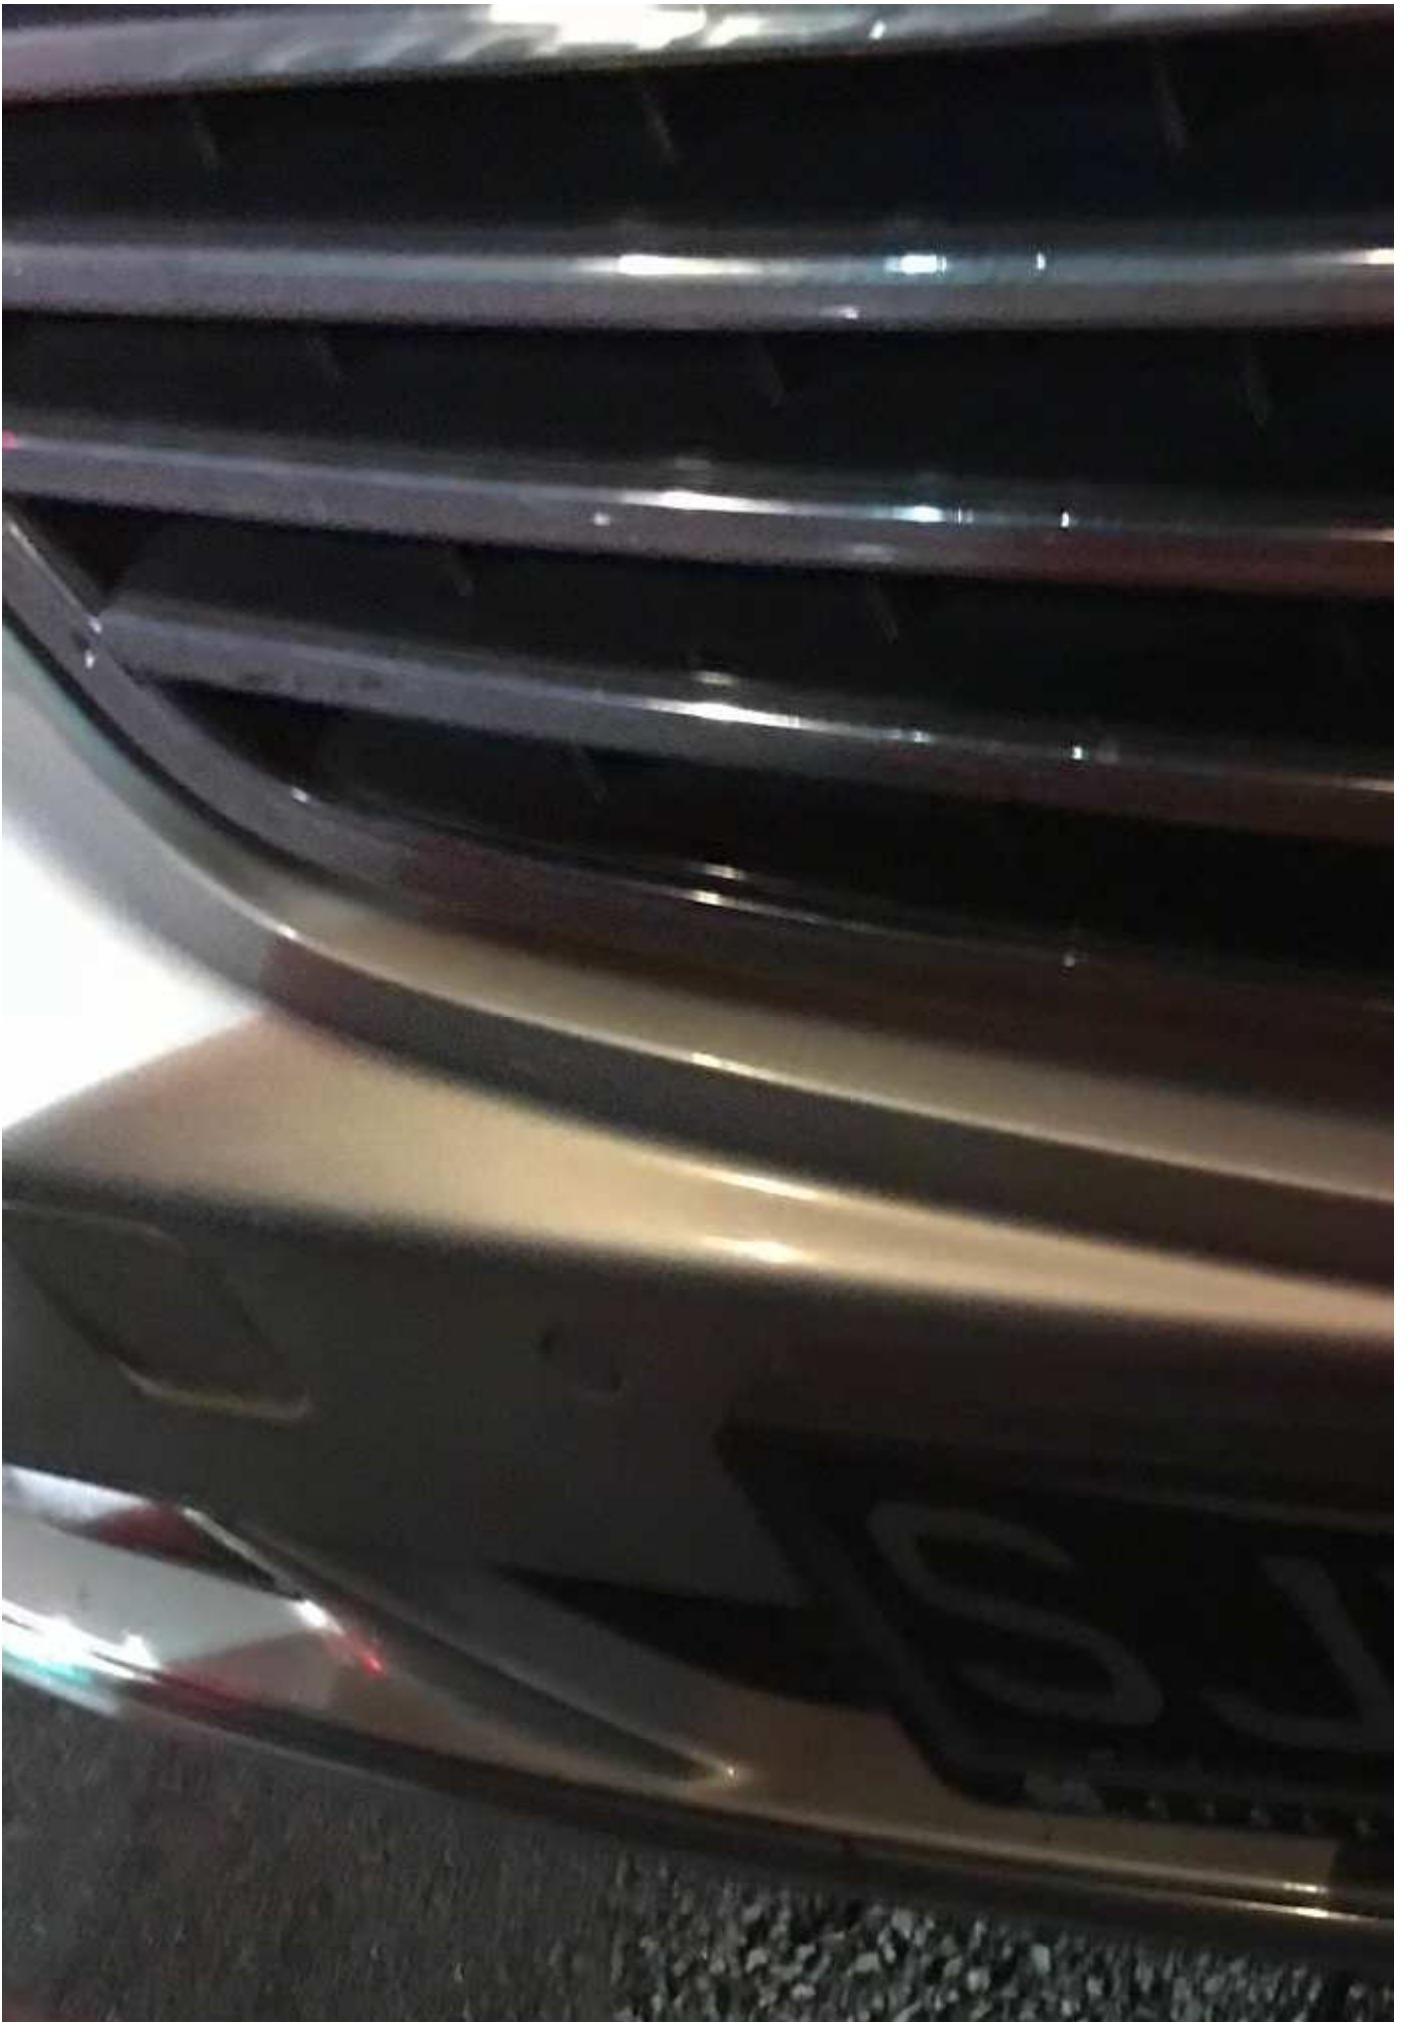

Hence it is a matter of grave concern that an insurance claim has been made when there was no accident and we are totally in the blind of what claim has been made.

Kindly advise further. You can contact me on 98380537.

Best regards,
Sonal Pandit
