Hi Sir, We refer to the above matter. Third party video uploaded into the system for your easy reference. TP reported that OI turn into the taxi stand and hit his vehicle while he is moving of the taxi stand. OI reported that TP change lane and hit his vehicle. Video clearly show that third party try to exit the premises by make a right turn and hit onto our insured on coming vehicle. The accident location for vehicle to exit the premises have to drive further down to make a round about in order to exit. Therefore we are of the opinion that insured shall not be liable for this accident. In view of the above, we are intending to reject TP claim. For your approval/ comments/ instruction. Thank You.
