Subject: Unable to repair Fire Damage Vehicle - GBB504D

Dear Bazlin,

I refer to the above vehicle – GBB504D which has caught fire and towed to our workshop for OD claim and repair.

The front engine compartment of the vehicle had caught fire quite extensively as such we had not put forth any estimate and had merely requested for surveyor to survey. Appointed surveyor had recommended limit repair of \$15K for the above on 26/01 but we are unable to repair at that limit and had instead requested for \$22k. We understand from LKK on 22/02 that a breakdown of the parts damaged is required. We write to inform that we are unable to submit a full breakdown as many of the parts are internal items with no parts prices as stockists do not stock some of these internal parts plus the nature of the damage (by Fire) has too many uncertainties in the parts damaged. We are also not confident of repairing the vehicle back fully as it due to the fire damaged.

We trust that you are informed.

DESCRIBE CIRCUMSTANCES OF THE ACCIDENT

On 13 January 2018 at approximately 1230hrs, driver of vehicle was assisting to deliver some goods to "Crocodile House" (see map). Driver was driving along paya lebar road and was supposed to make a left turn to the destination along UBI Ave 3. While making the left turn into UBI Ave 3, driver discovered a burning smell and a whirring sound emitting from the vehicle. Once the left turn was completed, smoke started to come out from the hood of the van. Immediately, the driver switched on his hazard lights and stopped the vehicle along the road. Driver bent down and noticed hot burning rubber dripping from underside of van and called colleague at Crocodile House to come over for help. Together, they opened up the passenger seat and used a fire extinguisher to put out a small burning fire. A tow truck was called and vehicle was towed to a workshop at Ang Mo Kio Industrial Park 2.

No physical injuries or damages was sustained by all parties involved during duration of incident
