Hi Vic,

We have shared the video in Merimen for your reference. The impact wasn't obvious in the video due to fast moving OIV. However, notice that TPV suffer damages on right side. As such, appreciate if your surveyor could verify if the damage is consistent to the collision.

Besides that, is insured agreeable to let us settle at best? We have received claim from owner of vehicle SLL5783K.

Regards,

George Lee

Dear George,

ACCIDENT INVOLVING VEHICLES SKS 6934K (OI) / SHA 2986S (TP) / OTHERS ON 21/01/2018

We refer to the above matter.

Insured reported that he was involved in a 4 veh.c.c. and was the last vehicle. Insured did not mentioned the TP vehicle on his report, as well as some on the vehicles involved in this chain collision.

We had spoken to the Insured where he confirmed that the TP taxi was there at the scene but he was not sure if it was involved in this accident.

As such, we had requested for a copy of TP video footage and was provided as attached copy. Based on the footage, TP was travelling on the middle lane when the Insured vehicle on the rightmost lane swerved left to avoid the front vehicle.

The Insured had also informed us that he got video footage and photos of the accident and were provided to his reporting centre.

Please assist to grant right to view the footage in merimen if available.

Thank you.

Best Regards,
