Dear Sir/Madam,

ACCIDENT INVOLVING VEHICLES SHA 3645U AND SJV 6689P ON 15/10/2018

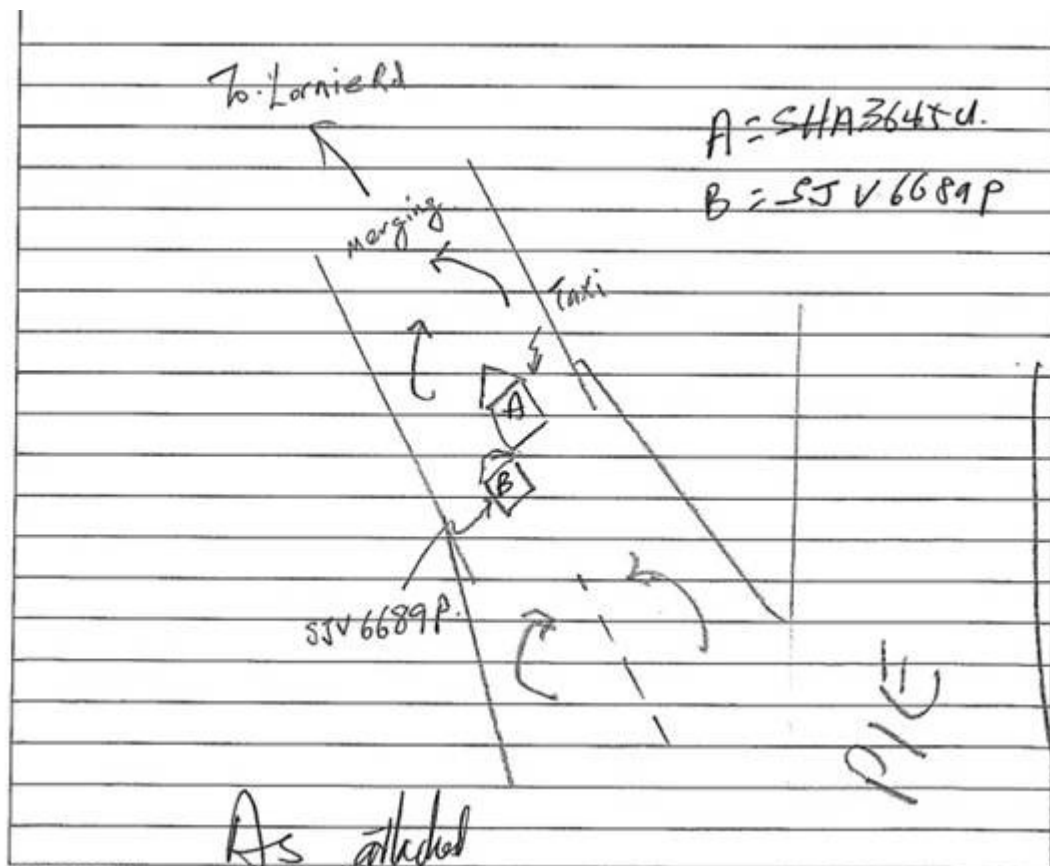

We refer to the above matter.

We are of the opinion that this is a case of **conflicting versions**. Below is a copy of our insured's accident report for your perusal.

We are in a course of investigating into the circumstances of the accident. After verifying further with our OI we will revert with our opinion on the cause of the accident. Kindly do not refer to any party for legal assistance until you heard further from us.

Meanwhile, kindly forward to us with any evidence (if any) your client have to support your claim.

Thank you.

I travelled on the slip road towards Lornie Road today(15/01/2018) after exiting PIE.

It was heavy on the slip and I moved at slow speed behind other cars.

As seen in the video footage, after crossing the merging lane and while I moved on the single lane road, suddenly I felt a light jerk when it was car B(SJV 6689P) that hit into my taxi.

I took photos at the scene which showed car B was behind my taxi.

In this accident, I found the rear left of my bumper sustained light dents while the front right to car B was slighted dented.

No passenger in my taxi.

I affirmed the above-statement is true and correct.
