**Circumstances of Accident**

#straightroad Moving straight & Moving straight Blue Car SKA8399L White Car SLS7527J I was driving SKA8399L and just exited PIE to Sim's Avenue. Both cars were stationary awaiting to merge into the main road. When the main road was clear, the front car SLS7527J started to glide off. I took my foot off my brake and my car started gliding forward slowly, I had not stepped on the accelerator at that point. The front car suddenly braked and when I saw it, I too jam on the brake. I felt the jerk from the brake but did not feel that I knocked into the front car. The driver of the front car got out and so did I. He claimed that I knocked into him but I insisted that I did not. There were absolutely no damage to both cars which could be clearly seen on the photos taken at the accident. The driver of the front car also admitted that there was no visible damage but claimed that there would definitely be 'internal damage' to his bumper and repairs would be necessary. I told him that his claim of internal damage was ridiculous. We did not change phone numbers and take down each others IC number as I did not see it as an accident at all. That was also the reason why I did not make a report on that day itself. If I had seen it as an accident I would have reported immediately. An AIG surveyor called yesterday 7 Feb and claimed that the front driver has made a long list of claims on his not visible damaged bumper and also required the whole bumper be re-sprayed. She said that he had made a laundry list of claims of which many she saw as not right to claim. There was zero damage to both cars and his claims for internal damage and re-spraying of his bumper is unfounded.
