Brief Details.

On 30/01/2018 at about 0920hrs, I was alone at Boon lay way open carpark of TradeHub 21, and my taxi was in the parking lot (unknown lot number). I then started to inching out when suddenly I saw a car, SLT364C, was driving towards me from my left which he was travelling along an opposite direction lane, upon seeing that I stopped my taxi hoping that the driver of the said car will stop as well but he was looking down on his phone and did not stop which then collided onto the front left side of my taxi.

I then went down and engage the driver of the said car and exchange particulars with the driver, during the conversation the said driver was confused and was in a state of shock. After exchange particulars, the driver then told me to claim insurance after which we left the scene, however on the very same day I felt pains on me and seek days MC in regards to the pains I sustain during the accident. I wish to state that I do have an in car camera installed in my taxi and was able to capture the footage of the said accident.
