Circumstances of Accident

Circumstances Of Accident #others, Upload the drawing sketch plan "On the 27th of January 2018, at around 1520 hrs, I was driving my dark grey Subaru (SKV5478B) on Bedok North Drive. I was on the right side of the 2 lane road and looking to turn right. There was a bus looking to turn into the bus interchange on the opposite side and it was blocking my view of oncoming vehicles. I inched forward and decided to go ahead with the right turn as I did not see any oncoming vehicles. However, a motorcycle suddenly appeared and I quickly braked to avoid a collision. The motorcycle lost control and fell on to the road, though there was no collision. I signaled to the motorcyclist to wait while I parked my car, and then got out to see to him. He had moved his bike and was standing and moving without assistance. He mentioned that he was okay, and that he was not angry, but that we should exchange particulars and contact details. He gestured to his leg on which I noticed a palm-sized scratch on his leg. He took out his phone and photographed my NRIC card while I did the same for his. I also took a photo of his bike, which seemed fine to me. We subsequently exchanged phone numbers and I left first. At about 1600 hrs, I received a text from him that he was heading to hospital, that his phone screen was cracked. He also mentioned his leg, and that he wouldn't be able to work for a few days as that was his only main income. At about 1700 hrs, he texted again to indicate that he had just reached the hospital. At about 1800 hrs, I received a police report of the incident."
