Brief Facts.

On 5/2/2018 at about 1630hrs, I was driving on the 1st lane along PIE towards Tuas. As there were vehicles slowing down in front of mine, I decided to slow down my vehicle too.

The vehicle in front of me bearing SDS339B had slowed down to a stop. Therefore, I also break my vehicle bearing JSN7555, gradually to a stop. Suddenly, I felt a huge impact coming from the rear of my vehicle. I alighted and noted that my vehicle was hit by a vehicle bearing EZ686A. Behind EZ686A was another vehicle bearing SLL2946C which was also involved in the chain collision. There were 4 vehicles including mine which was involved in the chain collision.

I managed to take photos of the damages however did not manage to get all of the driver's particulars. Traffic Police arrived shortly after. I was then instructed to lodge a police report in regards to the accident. I also wish to state that I am not injured and my passengers also did not sustain any form of injuries. I also wish to state that I will be claiming from insurance.
