**Brief Details.**

On the 12/12/2017 at about 1115hrs, I was travelling along Tong Watt Road heading towards Mohamed Sultan Road. I was dropping off my passenger at Kwan Im Thong Hood Cho Temple. I was behind V2(SLK3236S) when the driver alighted a passenger along the road and after moving for awhile. The driver of V2 then tried to do a three point turn heading towards Kim Yam Road and I stopped behind waiting for her to do her turn. While the driver of V2 was doing the turn, V2's right driver door banged into my left front bumper. A2( Driver of V2) then came out and we talked about the accident and she said that the damage to her car was a past incident even though there was a incident just now. I then told A2 that we can still exchange particulars and A2 agreed and went into her car but she drove off after that. I then followed her car and she made a round back towards Wharf Residence and went into the residence. I then asked the security guard if A2 was a resident here but they do not know. After a few moments, A2 then left the Wharf Residence with another passenger and went off even after I signal for her to stop. This is the first time such incident has happened to me. There was no Traffic Police or Ambulance at scene. There is in car cam footage of my vehicle and another passenger who is willing to be my witness for this incident.
