Dear Shawn,

ACCIDENT INVOLVING VEHICLES SKK 69P AND GW 6309S ON 09/02/2018

We refer to the above matter.

TP reported that he was rear-ended by Insured vehicle. Insured, however, reported that TP vehicle cut into his lane and resulted into the collision.

We had spoken to the Insured Mr Low where he confirmed that he was on the middle lane when TP suddenly cut into his lane and collided into the front left portion of his vehicle. The Insured does not have any video footage or photos available.

TP had insisted that our Insured vehicle had cut lane and provided to us scene photos which shows the position of the Insured vehicle after the accident. Please see below photos.

Based on the above photos, it shows that our Insured was within the lane. The damage profile also to the Insured's vehicle and point impact likely corresponds to Insured's version of the accident.

As such, we would like to reject the TP claim.

For your approval and/or further instructions please.

Thank you.

Best Regards,
