Dear Bevan,

Please maintain our rejection as TP should not overtake our insured vehicle, given that our insured driver has signaled his intention.

We are not giving consent to escalate the matter to GIA for adjudication.

Thanks.

Dear Bevan,

The longer video further support insured's version that he needs wider space to make a left turn into the carpark due to the parked vehicle.

Insured has turn on indication and TP should not force his way by overtaking OI from the left.

Kindly assist to reject the claim accordingly.

Thank you.

Dear Bernard,

ACCIDENT INVOLVING GR1365M AND SHB 11296B ON 12/02/2018

We refer to the above matter.

TP Reported that our insured driver slow down and move to the opposite lane and TP proceed straight, out of the sudden OID make a abrupt turn and collided with TP vehicle.

OID reported that he was intending to turn left into the carpark at orchard plaza when TP vehicle came and collided to his vehicle back.

TP have submitted us a video footage. Attached is the video footage for your reference.

Based on the video footage, Our insured driver have make an indication that he is making a turn. As near the entrance there was a van park nearby. Therefore he need a wider radius to turn in to the carpark. TP which was travelling behind our insured driver didn't not slow down and was trying to overtake Our insured.

1. It is a single lane and no vehicle should overtake the other vehicle.
2. Our insured driver have shown indication to turn therefore TP should not force his way to overtake from the left.

In view of the above, We would like to reject TP claim.

Kindly let us have your comments/instruction if any for our necessary action.

Thank you.
