Dear Vic,

We refer to our phone conversation earlier.

Based on our assessment and judging from the scene photos, there is no conclusive evidence such as accident video footage to conclude which party is the approximate cause of the accident. Therefore, this accident is highly likely to be classified as 50/50 conflicting statements.

Kindly confirm approval from Wilson to proceed with 50/50 on direct settlement with CDGE.

Cc: Dear Wilson, please review and confirm liability.

Our Ref: CC3/AIG13011997/M1et2

Dear Phoebe,

ACCIDENT INVOLVING VEHICLES SGA 5100Z AND SHC 3974J ON 01/07/2013

We refer to the above matter.

TP taxi reported that he was travelling in his lane and was to turn right at the junction with his indicator on when hit behind by the insured vehicle. Please see attached TP GIA Report.

Our insured reported that she was driving along the 2nd rightmost lane which can go straight or turn right lane and was also about to turn right at the junction when the TP taxi on her left swerved to her lane and collided to her vehicle. Please see attached OI GIA Report.

We had spoken to the insured where she strongly disputed on the TP claim and liability as she insisted that she was on her lane and that it was TP who cut to her lane. She got no CCTV footage available but was able to take photos after the accident showing the final position of the vehicles. Please see attached scene photos on OI GIA Report.

The TP claimant also attached a copy of the taxi passenger's statement. We tried to contact the passenger several times but to no avail. Please see attached TP witness statement on TP GIA Report.

Based on the circumstances of the accident and all available evidences at hand, we are of the opinion that our insured's statement is more probable. Based on the insured's scene photos, TP taxi is most likely changing lane towards the 2nd rightmost lane from the 3rd lane.

In view of the above, we intend to reject TP claim.

Kindly let us have your approval and or instruction for this case.

Thank you.
