BRIEF FACTS: A motor accident has taken place on 23 FEB 18 at about 1.55 pm along/location of Upp. Serangoon rd @ junction of Upp. Aljunied Rd between vehicle CB 6840 G and vehicle SHC 5623 J. I am an eye-witness/passenger in the taxi and I wish to recount its happening as follows

- ① The taxi stopped at the junction as the lights were red. It was behind the school bus which was the first vehicle at the junction, waiting to turn right.
- ② After waiting for a few seconds, the school bus started to slide backwards towards our taxi. The taxi driver pushed the horn to alert the bus driver about this act but to no avail. The school bus continued to slide backwards towards the taxi and hit its bonnet (front). I could feel the impact.
- ③ In this whole incident, the taxi driver did not move the taxi at all. It was stationary at the traffic junction.
- ④ The school bus was carrying a full load of students from Bendemeer Primary School. The bus driver refused to provide his particulars to us and left hurriedly.
- ⑤ The taxi driver was not at fault at all.

*. Note :

I affirmed the above statement true and correct.

Please keep my particulars private & confidential. Do not forward to any 3rd party.
