

1. The first step in the process is to identify the problem or issue that needs to be addressed. This involves gathering information and understanding the context of the problem.

2. Once the problem is identified, the next step is to define the objectives and goals of the project. This helps to clarify what needs to be achieved and provides a clear direction for the work.

3. The third step is to develop a plan or strategy to address the problem. This involves breaking down the problem into smaller, manageable tasks and determining the resources needed to complete them.

4. The fourth step is to implement the plan. This involves putting the strategy into action and monitoring progress to ensure that the objectives are being met.

5. The final step is to evaluate the results of the project. This involves assessing the effectiveness of the plan and identifying any areas for improvement or further action.

This incident happened on 15 Dec 2017 around 1150 hrs. I was travelling on lane 1 on AYE towards CTE, there was a BMW car tailgating my motorcycle very closely even I am travelling around 80 km/h. BMW driver was getting impatience as I could not give way. I had 2 cars in front me on lane 1 and few cars on Lane 2 as well. When BMW driver totally lost his patience, the BMW driver tried to take over me by squeezing from my right side even though there was very narrow space. BMW driver was not being considerate of my safety at all by doing this. While BMW driver was taking over, BMW car hit my motorcycle and I fell from my motorcycle breaking 5 bones in total and bruising several parts of my skin. I
