ADDRESS: 15H KANG CHOO BIN RD S548280			
TEL NO.: 85717411		NATIONALITY: SINGAPOREAN	
RECORDED BY: CPT TIMOTHEUS LEE			

1. I was tasked to support 36 SCE in their Pulau Senang demolition live_firing ration run. I was the transport operator for their ration tonner.
2. When the vehicle commander and storemen went to do the ration run to Pulau Senang, I decided to sit in the passenger seat at the front and wait for them to come back. Around 1140 hrs, I looked right and saw a lorry reversing out of a small construction site and it didn't stop even though it was nearing the 5 ton. There was a small bang and the lorry hit the 5 ton. I immediately went down to investigate the situation, but the lorry had moved in front and I couldn't see exactly where it hit.
3. The lorry driver parked the lorry and came down to talk to me. I took down his contact details as well as some photos of the vehicles. The lorry driver mentioned that his foot slipped off the brake paddle, which resulted in the incident. He said both vehicles looked fine and left thereafter.
4. I reported this to my HQ and also to my vehicle commander, who then reported this to 36 SCE.
5. That is all I have to say.
