FACTS OF CASE:

I am the girlfriend of Mr Chris Chee who was involved in the accident on 07/01/18 at 0200 hours. We have been together for over 10 years. I got a call from Chris at 7pm but I did not pick it up as I was still sleeping. I then got a 2nd call at around 7 plus am and answered the call. He told me that he had been in an accident. He was in a lot of pain. I told him that I would come over to his place at 623 Bays Road. At 07.23 hours I took a Uber to his place. I reached at 0800 hours. I have a key to his house. I called out to him to ask him where he was. He didn't answer. I found him on the kitchen toilet floor. He was conscious. I asked him what happened. He said he was in a lot of pain. I told him to try to move. It took me a while to help him up. He told me he did not want to risk any more injury. I helped him to the bedroom where he rested for a while. He rested for a while and I cleaned him up a little. I asked him if he wanted me to call an ambulance. He declined. We finally go took a cab to the National University Hospital (NUH) at about 1000 hours. We reached NUH A & E department around 1030 hours.

STATEMENT

He was pushed in via wheelchair while I did the registration. Nurses took his blood pressure. He was then pushed into another department which I was not allowed to go in. I waited for about 2 hours. He told me that X-rays were done. I saw him being pushed to the pharmacy. I helped him get the medication. He paid for the medication. I paid for the registration fee. ^{with my debit card.} We then hailed a cab and went to the Traffic Police HQ.

We reached there at about 1300 hours. Chris made the police report. We waited there for about half an hour to see the investigating officer but a police officer told us that the IO was not around but off and told us to go home. After that he took a cab to send him home. We reached his place at about 1500 hours. I helped him take his medication and accompanied him till the end of the day. I went home later. I went to visit him the next day after work. I paid for all the cab fare.

I wish to affirm that Chris has been diagnosed with hearing loss in his right ear and has stopped taking alcohol as he cannot take his medication with alcohol. He has been having this condition for the past 1 and a half years. He has been trying to regain his hearing and will not drink alcohol because of the medication.

I hereby confirm the above statement is correct and true at the time it was written.
