POLICE REPORT (NP299)

CONTINUATION OF REPORT

Report No. J/20180325/2087

result, the right-side of my vehicle's rear fender and the taxi's left-side front fender grazed each other without me realizing it, and thus I did not stopped my vehicle. Subsequently, as I was driving on the first lane at AYE, I noticed the taxi was speeding up towards me from behind and then cut into my lane from the second lane. After the taxi had cut into my lane and was in front of my vehicle, the taxi suddenly jam braked for no apparent reason which caused me to jam brake as well. I then overtook the said taxi and drove along the second lane instead, in which the taxi start to move again. The taxi driver, who was observed to be a middle-aged Chinese man, gestured to me to pull over my vehicle. Eventually we pulled over both of our vehicles at the road shoulder of AYE, and the taxi driver then angrily told me that our vehicles had collided at the merging lane, and he showed me the damage on his taxi which was caused by my vehicle. The taxi driver continued to scold me in a harsh tone. The taxi driver also said, "I will fuck you up" towards me. When I tell the taxi driver that I would be lodging a complaint against him, he suddenly said that I was the one who threatened him which was untrue. Eventually we took photos of each other's vehicle plate number and left the scene.

I wish to state that this was the first time such incident happened. I did not know the particulars of the said taxi driver. I will be liaising with my insurance company in regards to the damage on my vehicle.
