**Brief Details.**

On 31/03/2018 at about 1330 hrs, I was driving my car, SLX1032H along PIE towards Tuas, near to Kallang exit. I was on the most right lane. The traffic flow was slightly congested thus vehicles were moving slowly and intermittent. The vehicle in front of me came to a stop thus I stepped on my brake and came to a stop.

Suddenly, the car, SLD4551L behind me collided onto my car. My car inched forward due to the collision however did not hit onto the vehicle in front of me. I then got out of my car and realized that it is a chain collision. Total 4 cars were involved including my car. The last car, SKA8182U had collided onto the third car, SLV7964P who then hit onto the car behind my car. Due to the impact of collision between the fourth and third car, the car behind me got pushed forward and collided onto my car. I am sure that the car behind me had come to a stop before colliding onto my car.

Due to the collision, there are scratches and dents on the rear bumper and boot of my vehicle. There are also dents and scratches on the front and rear bumper of SLD4551L due to collision. I do not sustained injuries neither the driver and passenger of the car behind. However, the driver and a passenger of the third car were conveyed by Ambulance.

I wish to add that I do not have the particulars of the driver and passenger of the third and fourth car. Traffic Police and Ambulance were at scene. No government property damaged. I am lodging this report for insurance purposes.
