Sketch Plan

Describe Circumstances of the Accident

Initially I was in stationary position, waiting for the traffic light to turn green. Upon seeing the traffic light turn red and the opposite cars all stopped before the yellow box, I have to wait in my lane. However, I proceed to turn right with slow speed. However, when I change complex my turn, the veh 'B' suddenly dash out from the opposite, and stop before the yellow box and continued into the front portion of my car. I now take some correct picture.

Brief Details.

On 04/04/2018 at about 1850hrs, I was driving along ECP just before the Fort Road exit. I was travelling along lane 3 at about 50-60km/h. Traffic volume was quite heavy and the traffic flow was quite intermittent. There was also a vehicle that had broken down on the right most lane which caused the vehicles on the right most lane to filter into my lane. I was inching forward following a safe distance away from the vehicle in front of me, SLS5968H when all of a sudden he jammed braked. I attempted to jam brake as well however was unable to stop in time and lightly hit onto the said vehicle. However due to the sudden chain jam braking, the vehicle behind me, SJT2936M could not stop in time and hit onto the rear of my vehicle and as such caused my vehicle to further hit into the vehicle in front. I then exited my vehicle and noticed that there was also another vehicle in front of us which equates to a chain accident of 4 vehicles which I am the 3rd vehicle. I managed to exchange some particulars however I had forgotten some names and the vehicle number of the first vehicle. I am lodging this report for insurance claims purposes. That is all. No injuries sustained by any parties.
