

SKETCH PLAN

As attached.

DESCRIBE CIRCUMSTANCES OF THE ACCIDENT

On 13 May Sunday, at around 0816H, I stopped my car (35K2226B) at the junction of Alma Way and Geylang Rd. I was waiting to turn right into Geylang Rd as the turning arrow was red. I was on the second lane from the right and there was a silver car on my right stopping on the 1st lane from the right. When the right turn arrow turned green, I slowly moved off and executed my right turn in tandem with the silver car. About 3-4 seconds into my right turn, the incident car (3K6 307H) veered into my lane from the left at a relatively fast speed. I immediately e-braked as I cannot evade to the right due to the silver car. However, the incident car knocked into my car ~~near~~ above the front wheel area at around 0817H. The driver of 3K6 307H then continue to move his car to the left most lane of Geylang Rd and stopped. I followed and stopped behind him. I wanted to call the orange force to assist but the incident driver said he was in a rush and needed to go urgently. ~~He drove off after that~~ I do not have an in-car camera as I am working in an airbase which does not allow cameras. ~~He~~ I told him to submit his in-car camera footage as I saw he has one. In principle, he promised to submit the footage as evidence and he drove off after exchanging contact details only.

DECLARATION

I/We declare the foregoing particulars are true in every respect.
