Brief Details.

On 12/05/2018 at around 1400hours, I was travelling along Jalan Hussein and turning into Lorong Marzuki at the intersection near to lamp post number 6. While I was approaching the stop line, I stopped at the stop line. There was one vehicle, SJP4609R parked stationary along Lorong Marzuki near to the intersection blocking my vision to check on the oncoming traffic from the opposite direction. As such, I inched out at a very slow speed to make a check.

Out of sudden, one vehicle, SJK4396E, approached from the opposite direction came out from nowhere collided onto my right front engine part. Due to the impact, my vehicle jerk forward. I was in shock for a few seconds. After which, I alighted from my vehicle to make a check. I wish to state that due to the damage on my driver's side door, I have difficulty to open the door. I need to forcefully push it for it to open.

There is no in-built car camera in my vehicle, I made a check on the other party camera and discovered that there is also no in-built car camera. At that point of time, there is no one injured. I wished to inform that there are tyre marks on the road and I believe that it was caused due to hard braking by the driver of SJK4396E. Due to the great impact on my vehicle, I suspect that the driver was speeding, it could have travelled more than 50km/h.

After the accident, I felt pain at my neck area. As such, I will proceed to seek for medical attention after the road traffic accident report has lodged.
