Brief Details.

On 06/06/2018 at about 2035hrs, I was driving my vehicle along Yio Chu Kang Road to pick up a passenger. Suddenly, the car that was travelling in front of me slowed down and came to a complete stop. I had managed to keep a safe distance between my car and the car ahead of me and followed to stop at a safe distance. Suddenly, I felt a hard impact on the rear of my car. I made a check and realized that the car that was travelling behind my car had hit onto the rear bumper of my car. I immediately alighted from my car to make a check. I realized that my rear bumper was damaged. I called for both the police and the ambulance and they came to scene. I was not conveyed by the ambulance and went back home. On the same night, I felt pain on my back, dizzy and breathing difficulty. The doctor informed that I had suffered a whiplash. I went for medical treatment the next day and was given 5 days MC. I am a GRAB driver and the car that I am driving is a rented vehicle. I have since notified the rental company about the accident and they acknowledged.
