Brief Details.

On 20/06/2018 at about 1740hrs, I was alone driving my car (gold colour Hyundai bearing plate no. SKP3888X) along Buangkok East Drive towards Sengkang on the left most lane. At that point it was drizzling and the floor was wet. As I was driving along Buangkok East Drive at the bend after the KPE exit 9B, my car suddenly skidded towards the left and I lost control of the car. My car then hit on to the left side a white colour Audi bearing plate number SKV317R and my car subsequently it stopped on the most right lane of the road. I do not remember if my car had hit any other thing other than the white Audi car.

I then went down from my car to make a check with the Audi driver if he is fine and I then called my company to inform of the accident as the car belongs to my company. There was no reported injuries at the scene. After a while, LTA came over and they called for Traffic Police. Subsequently Traffic Police arrived. As I have a in-car camera installed in my car, the officer requested for my camera SD card and I handed it over. I was then told to proceed to the nearest police station to lodge a traffic accident report.

I wish to state that that the front bumper of my car had fell off and there are dents and scratches and the front right side of the car. My car was towed away at scene by a towing company. I did not take down the Audi driver's particulars and only have his contact number 82281091. This is the first time such incident had happened.
