Dear Sirs/ Madam,

### **ACCIDENT INVOLVING SLQ 4850E(OI-LCR) & SKN 1165Y(TP) ON 30/06/2018**

We refer to the above matter.

Third party reported that she was picking up her son at IKEA Alexandra. Our insured was trying to squeeze into the taxi lane on her right and scratched her right front bumper. Third party reported that her vehicle was stationary when the accident happened.

Our insured driver reported that he was stationary along IKEA pick up/ drop off point. He looked at his left side mirror before proceed to move off. He saw that third party was trying to squeeze in while negotiating the bend and was very close to his car. He went out to check and realised that third party had bump into his car.

We have uploaded a copy of third party video in Merimen for your easy reference. The video shows that third party was stationary at the left lane, our insured was passing by third party vehicle on the right lane. We observed that there was a minor/light jerk on third party vehicle while our insured vehicle passed by third party vehicle. We are of the view that third party version is more credible.

Kindly let us have your comments/instruction if we may proceed Direct Settlement with third party after viewing third party video.

Thank you.

Best Regards,
