### **Brief Details.**

On 04/07/2018 at about 1620hrs, I was driving vehicle SLH4262A along Loyang Avenue towards PIE when the traffic light turned yellow colour. I then slow down and came to a stop. After stopping, I noticed that the behind car was driving and I felt like he could not stop in time. I tried to drive forward but the cars from the other lane were turning hence I could not do so. The behind car then hit my rear car.

We both alighted from our cars. I discovered that my rear bonnet was badly damaged with dents. I am unsure of the cost of the damage for my car. The other car SKE3468H's front bonnet was slightly dented. We both then exchanged particulars. I did not manage to take his handphone number down.

Initially I did not feel any impact or back pain but hours later I felt an ache in the back. I then went to see the doctor at Foo and Ong Family Clinic Pte Ltd and was given 3 days.
