Message

Dear Cynthia, we refer to the above matter. Enclosed TP and OI video for your perusal. base on the video OI was ahead after the merging lane. OI has the right of way. TP should follow behind is very well known that the space between OI and kerb is too narrow for TP to drive pass and TP is still taking a risk.. As such we intend TP reject TP claim. Kindly advice on your view/opinion/instruction for this claim.Thank you. Vivian Lau (11/12/2018)
