As explained, while travelling on the right most lane along PIE just before the turn out to Eunus, I noticed the taxi was suddenly slowing down and break my car immediately and managed to stop before hitting it. However, just when I thought an impact was avoided, another car SLQ3815P hit the rear of my car causing my car to to move forward and hit the taxi.

Please let me know if you need any further details pertaining to this accident.

Best Rdgs,
Tham
