Hi Joy

Can your surveyors assess based on the height of both vehicles/damage patterns that the damages on respective vehicles are consistent and inflicted due to the accident circumstances as reported?

Please let us have your advice, thank you.

Dear Mavis,

This is a front-to-rear scenario. Our insured vehicle was behind. However, OID did not mention hitting TP in his report.

We observed from the reporting photos of OI in his GIA report that there were damages on his left front bumper which suggest that likely, OID had collided with TPV.

Please advise if we may proceed to clear liability with the repairer.

Thank you.
