Without Prejudice

Dear Sirs/Madam,

ACCIDENT INVOLVING FBL 8917R(AXA) & SLV 6878L ON 01/08/2018

We refer to the above matter.

We have our principal instruction to reject your client's claim as our insured reported that he was being hit from behind by your client.

Brief Details.

On 01/08/2018 at about 1712hrs, I was riding along PIE and as I was exiting the expressway towards Jurong Town Hall on lane 2, I felt a hard knock at the rear of my motorcycle. As such I lost control of my bike and I fell off the bike towards my right. A car had knocked my bike on the rear.

I felt pain on my elbows and lower back but I still managed to get up on my own before making my way to the side of the road. Another road user called for ambulance and police. Ambulance arrived at scene and the paramedics attended to me. Traffic police arrived shortly and interviewed me before I was conveyed to Ng Teng Fong Hospital.

I sustained abrasion on both my elbows and lower back. I was given 3 days' medical leave for my injuries. I wished to state the driver of the car which knocked my bike down, came over to visit me. We exchanged details and I was discharged shortly.

I received a call from Traffic Police and I was advised to lodge a traffic accident report and report to the Traffic Police compound to retrieve my bike.

Thank you.

Best Regards,
