**Brief Details.**

On 23/06/2018 at about 1310hrs I was riding along Lane 1 of TPE towards Changi Airport as I was proceeding to work at Changi Airport. While I was riding just before Lor Halus exit, one Malaysian motorcycle bearing registration number JRX6476 fell on the road. Due to the sudden fall, I was not able to avoid his motorcycle and I later collided into his motorcycle resulting me to be overthrown from my motorcycle. *And I also wish to add on that suddenly there is a car*

*came and he was on motorcycle.*  
I then got up and realized there were a total of 3 motorcycles and 1 car involved in the accident. After exchanging particulars, I then proceeded to Changi General Hospital to seek medical attention and was given 3 days MC.

I would like to state that prior to the accident, I was riding behind the Malaysian bike and I observed one red in colour Mercedes car was driving dangerously and keep on <sup>braking</sup> ~~breaking~~ continuously for no reason even though there were no vehicle in front of the Mercedes car. I however was unable to see the vehicle registration number of the car due to the heavy rain.
