Without Prejudice

Dear Sirs/Mdm,

We refer to the above matter.

We have spoken to our insured driver and he adamant that he was stationary and collided by your client. We attached here with our insured accident scene photos for your easy reference.

Our insured photo shows that his car still remains in the lot with the front Tyre facing front indicating no sign of swerving or moving. The damage profile do not suggest that insured vehicle swerving out from stationary position, otherwise the damages should have been more serious, and your client taxi damage would have sustained more damage on left side body of taxi and not just slight graze damage on the rear left end bumper.

In view of the above, we are of the view that our insured's version is more probable. Therefore, we regret to inform your that we have our principal instruction to deny liability and unable to look into your client's claim.

Thank you.

Best Regards,
