Brief Details.

On 26/06/2018, at 1300hrs I was driving along Yishun Avenue 2, turning right to Yishun Central. I was at the extreme right lane and my vehicle was stationary. The vehicle in-front of me then started moving, I then start to follow. Suddenly I feel a knock on my rear of my vehicle. I then on my hazard light immediately and proceed with the right turn as I do not want to block the traffic. After I make the right turn, I then stop my vehicle at the side of the road. However the rear vehicle that knock on to me change the direction and proceed to go straight instead. I wish to state that I am working as a grab driver and there is a female passenger on my vehicle at that point of time. The passenger inform me that she suffered pain on the back and the neck and will be proceeding to see a doctor. I observed that it was a taxi and it might be from Prime Taxi company. I wish to state that this is the first time such an incident happen to me. I also like to further state that my vehicle suffered damage on the rear of the vehicle.
