Circumstances of Accident

#straightroad Changing lane & Moving in own Lane Blue Car GBE4775X White Car unknown On 31 Aug 2018 around 2pm i was driving my company van along bukit timah rd near kampong java Junction. As i am driving on the centre lane and was going to turn into caveng road. I signal left and check the left mirror the left lane is clear and the nearest car (incident car) behind is at a distance away and since it is raining i double check again for the blind spot and began to filter to the left most lane. On seeing my van signal left and going to filter the lady driver behind instead of slowly down keeping a safe distance and letting the front car have enough space to filter in she speed up and fearing that i am going to take her lane by the moment she realise not possible and it is too late to pass through her front right bang against my left backside. The first moment i stopped in front and alighted to check if she is ok and also check the conditions of both car the company van only suffers minor scratches but the front right of her car got a dent in. I given her my contact number but she did not give me. i have taken pictures of her her damage front and our company van. thanks
