Brief Details.

On 13/9/18 at around 1210hrs, as I was driving out from the carpark with one of my colleague who was seated on my left near to lot 147. I suddenly felt a very huge impact coming on my right. I took a quick glance and realized that one vehicle(GBB9287X) has collided onto my rear right and the driver was holding a phone on the line with his right hand. When he alighted the vehicle, he was still holding onto the phone and was on the line with someone. After which we exchange particulars, agreed on claiming insurance and we left the scene. After a short while, both me and my colleague felt pain on my neck and my waist area. I then proceed to Mount Alvernia Hospital for a check up and was given 5 days of MC. I wish to state that there was no in car camera installed in my vehicle. I also wish to further state that GBB9287X came out from lot 146.
