DESCRIBE CIRCUMSTANCES OF THE ACCIDENT
Refer to police report no = 1/20180914/2016.

Brief Details.

On 13/09/2018 at about 2255hrs, I was riding my motorcycle (black coloured Honda, bearing vehicle registration number FBM5447U) with one pillion along Rochor Canal Road and turned right onto Jalan Sultan. It is a two-way road and there are two lanes each. I was on the right lane.

When I was travelling straight, a taxi (Transcab, red coloured Chevrolet, bearing vehicle registration number SHB7663K) suddenly turned right from the opposite direction into Hotel Boss. I was unable to stop and the taxi's front left collided into the front right portion of my motorcycle. The taxi had already gone past the give way line.

The collision impact caused my motorcycle to fall to the left. Due to the accident, my motorcycle's fairing was damaged and the foot rest, hand guard and box were broken. I exchanged particulars with the taxi driver and took photographs of the accident scene.

No Traffic Police or ambulance came to the accident scene. My motorcycle was then towed away. Due to the accident, my left back shoulder area was swollen and sustained bruises. My right knee, right shin and right foot sustained abrasions. My left foot toe was injured. I also felt giddiness. My friend pillion and I went to Mount Alvernia Hospital for a check-up and I was given Medical Certificate for 7 days from 14/09/2018 to 20/09/2018.

I do not have any recording equipment on my motorcycle. There were two cars who had witnessed the accident and their installed car camera had captured the accident occurrence. I did not get their particulars but I have the contact numbers (Sean HP: 96715177, female driver HP: 81013537) of the drivers.

Thank you.
