Brief Details.

On the above mentioned date and time, I was travelling along PIE towards TUAS on the extreme left lane when the accident happen. As I approach a bus stop, I noticed the truck (XD217L) in front of me slowed down and came to a stop as thus I follow suit. After about 1 to 2 seconds, I felt an impact from the rear of my vehicle and this caused my vehicle to propel forward and hit onto the rear of the truck in front. As such, I quickly alighted from my vehicle and noticed that another truck (XD716Y) had hit onto me which caused a chain collision. No one was injured during the accident. We then exchanged particulars and agreed to proceed with our own insurance claim. My vehicle had sustained serious damage and require towing services. I wish to state that there is in-built car camera on both front and rear of my vehicle.
