Brief Details.

On 12/10/2018 at around 2000hrs, I am traveling along woodlands industrial park E5 to look for my passenger as I am a part time grab driver. When I am trying to locate to pick up my passenger, I had a collision with a Malaysia motorbike (JRW7901) outside of Woodland Bizhub. I wish to state that I am travelling at a low speed as it is drizzling and I did not notice the rider as when I am looking at my rear mirror, all I can see was the high beam light from the other vehicle. After the collision, I talked with the rider and we exchange particulars as well as there is a written agreement between me and him regarding the accident. I wish to state that my right side of the vehicle was dent and also there are scratches on it. The rider also informed me that he is in pain however when I offered him a ride to the hospital, he told me that his colleague will be sending him to the hospital.
