Dear Sirs/Mdm,

ACCIDENT INVOLVING SKK 3543S(AIG) AND GBA 5090C ON 21/02/2018

We refer to the above matter.

Attached is a copy of our insured accident statement and accident location for your reference. Our Insured insisted that your client was driving against the traffic flow. We have studied into the case and we have come to clearer picture on the traffic flow in the compound vicinity. Your client was driving a van has chosen to travel along driveway which is not meant for delivery van but lorries and containers. Your client took a short cut instead of moving around the building in order to exit through the main entrance. Your client being a van should follow the driveway where our insured has taken and exit in the same manner. Therefore, we are of the view that the proximate cause of accident attributed to third party's failure to follow the traffic flow instead travelling against it resulted in the collision.

Nevertheless, we propose settlement at a global sum of \$500.00(all-in).

Please confirm acceptance.

"Kindly note that this negotiation between parties on this matter is purely on a without prejudice basis with the sole intention of resolving the matter amicably without parties resorting to legal proceedings. No admission of liability, whatsoever, should be deemed / inferred from this negotiation of terms/settlement."

In the event of new evidence being discovered or subsequently produced by either party that will materially affect/influence on the issues of liability/damages, either party is not bound, thereafter, by the negotiation terms/settlement."

"Wishing you a Happy and Prosperous New Year"

Best Regards,
