Brief Details.

On the 31/08/2018 at about 1300hrs, I rode my motorcycle FBB7938P along Bedok North Road from Tampines. It was a 3 lane road. I was in the middle lane and I was on the lane that can either go straight or make a right into Bedok Reservoir Road to the Al Kaff Mosque. I waited at the cross junction while the traffic light was red. After the traffic light turned green, I move forward into the pocket, at the center of the cross junction. After checking that the traffic is clear, I made a right turn.

After I made the right turn, I blackout and only regain my consciousness when I am lying on the hospital bed. I have not seen my motorcycle and also do not know the location of my motorcycle hence do not know how bad is the damage.

I was admitted to the hospital and only discharged on 10/09/2018. I was given 36days MC by Changi General Hospital subject to further extension after follow up review. I have suffered many injuries such as multiple rib fractures, one open wound at the left forearm, left index finger fractured, 2 fractured left toes, 1 dislocated left toe and also had a left subdural and subarachnoid hemorrhage that showed interval reduction in size.

I do not have the other driver's particulars. However, I came to know that it was a truck GBE6065Z that had hit me because we chanced upon a video on Instagram which shows the accident's aftermath. Upon seeing the video then I realised that I was hit by a truck in the accident. TPIO Jamie Ng have also spoke to my son and confirmed this.
