Dear Mr Eng,

We refer further to our below email and we notice that due to your busy schedule, you may have overlooked our below email.

We had further reviewed the matter, as per your accident report, it was mentioned that your vehicle had accidentally grazed the stationary Third Party vehicle while reversing into the lot.

And as previously spoken over the phone, our surveyor had further reviewed and is in the view that the damages sustained to the Third Party vehicle is consistent to the nature of accident as reported. As such, we attached a copy of our Report for your reference as requested.

Our surveyor during the inspection of the claimant's vehicle is in the view that the damages sustained to its vehicle were due to this collision. Unless you have further concrete evidence to prove otherwise.

The above photos shows the third party vehicle at the time of inspection.

The above photo shows the front right portion of the third party vehicle that sustained damages as a result of the collision.

The above photos show a closer look on the third party vehicle which shows damages in grazing nature. The front bumper surface was scratched all the way to the wheel arch trim. Our surveyor is of the view that these damages were beyond repair and these parts were recommended to be replaced (see attached survey report).

Above photo shows the replaced parts on the third party vehicle.

Our surveyor had further adjusted the cost of repair from the estimated amount of \$3,886.60 to \$2,865.60 after inspection.

We are of the view that the adjusted cost of repair is already fair and reasonable.

As such, we will proceed to settle the matter with the third party amicably in order to avoid further cost if the matter will be escalated further.

If you still insist for us not to settle the claim, you may undertake the matter under your own defense.

If we will not hear from you on/or before 6th November 2019, we will proceed accordingly.

Thank you.

Best Regards,
