<p>I, S9600523G, LCP MUHAMAD SHAFIQ was activated to send out a casualty who was hyperventilating on 18 Oct 18 at about 1910hrs. As I reached the guardhouse of Tengah AirBase, the Security Trooper gestured me to drive forward and closer to the gate to verify my particulars so I drove beyond the stop line. After we had verified our particulars, I had to reverse my vehicle as it was too close to the gate and obstructed the opening of the gate. I checked my left and right mirror, and my rear camera but did not see any car at the rear. My blinker lights were switched on enroute to Tengah AirBase as the condition of the casualty got worse when we were moving out. While reversing, I saw the vehicle through my rear camera, I did an emergency brake but it was too late. I had reversed quite a bit before I saw the vehicle at the back on my rear camera. At that point, I only wanted to send the casualty to the Medical Centre ASAP. At the back, both the medic and the commander accompanying the casualty were struggling and trying their best to keep the casualty conscious and they kept shouting to tell the casualty not to close his eyes. Hence, I did not dismount to check my vehicle at the point of incident. Only after I brought the casualty to the Medical Centre, I dismounted and check my vehicle at the carpark which I discovered the damage. immediately, I called the MT Line Ops Room and informed the duty leader of the incident.</p>
